DETAILED ACTION

1. In the previous Office action mailed on 29 June 2007, the status of the pending claims is unclear. In particular, rejected claims 26, 27, and 35 were indicated as being both rejected and objected to in the Office Action Summary (PTOL-326). Also, in the PTOL-326, canceled claims 23, 38, and 39 were indicated as being objected to. Therefore, to clarify the record, the previous Office action has been withdrawn and replaced with the current non-final action.

2. The indicated allowability of claims 26, 27, and 25 is withdrawn in view of the newly discovered reference to Chen et al. (US 2005/0145984 A1).

Rejections based on the newly cited reference follow.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. *Claims 22, 24-27, 34-37, and 40 are rejected under 35 U.S.C. 102(e) as being anticipated by Chen et al. (US 2005/0145984 A1 A1).*

Art Unit: 2822

Allowable Subject Matter

4. Claims 28-33 are allowable over the prior art of record.
